

Clarification the OPTin OPTout - Feature on SportyHQ.com.

**If you are a registered player with the SportyHQ.com website and already listed in the current league**

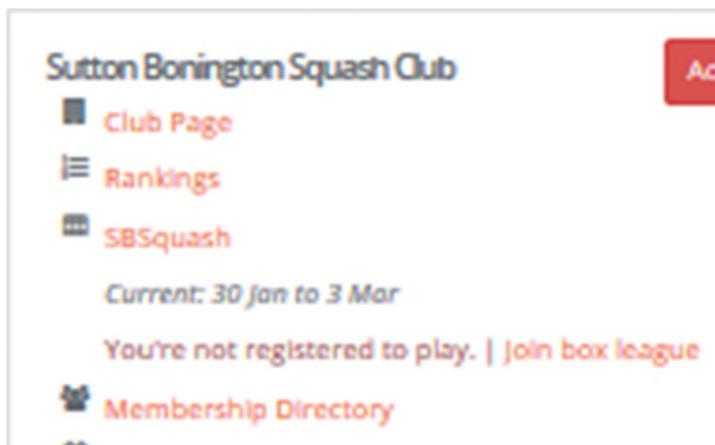

**Your dashboard will show**

This means you are automatically set to join the next League. To OPT out of this box league does not refer to the current League but to the Box League system and will exclude you from the next league.

If you do not play any games it is likely you will be removed from the Leagues automatically unless you state otherwise to the League Organiser who can then reinstate you.

**If you are registered but not in the current League your dashboard will show**

You therefore have the option to join the succession League.

There are minor issues to resolve with SportyHQ but as long as you understand the principle there should not be any further problems in leaving players out. The League Organiser will be relying on this system in future.

These options also show on the top of the SBSQUASH league page.
